One year Bible Reading Plan Read the Bible every day with this plan that the Church of the Absolute Faith provides. It gives you a portion of the New and Old Testament and a Psalm or Proverb every day. If you don't think you can do every day, this is a 5 day plan a week that I like because you have two days off every week. In case you miss a day or two, you won't be back. If you want to read in a year but you don't want to jump around, this from Sweet Blessings just goes by booking. It also has excellent links to online plans that you can do on your phone or computer (YouVersion, Bible Gateway, Bible Study Tools.) so make sure you check it out! If you want to go a bit slower, this is a creative plan "Mustard Seed" of OfWeeks where you read the shortest books of the Bible before, so you feel a sense of realization! They also have a 2 year biblical reading plan if this fits you. If you are the opposite and want power through the Bible, here is a Christian Standard Bible plan that will help you complete90 days. When I was a missionary in East Asia, this was something we did as a team several times. It is really interesting to get full full fullbefore forgetting the other bits. I'm not sure I could do it now! Chronological Bible Reading Plan This from Mostly Sensible is beautiful because it breaks it from chapters and books on how they think the Bible actually played over time. The second page is actually where you start, in Genesis, you know "In the beginning..." Read your rhythm You don't need a chart for this. Just open the Bible, read a little and put a bookmark in when you are done! Go to your pace! The Bibles with the Plans actually use a year's Bible, so I don't use a chart at all! LOL! It's all broken for you, so open until the date and read the Old, New, Psalm and Proverb. There are a lot of translations available. I use the New Living currently because it is easy to understand, but the NIV is probably larger bed. Here is the chronological version of the one-year Bible if you want to read it this way. I did it a year and it was an interesting change.
